

ZCQ SERIES

SELF PRIMING MAGNETIC PUMP

SHANGHAI ZHILI PUMP MFR CO., LTD

Instruction

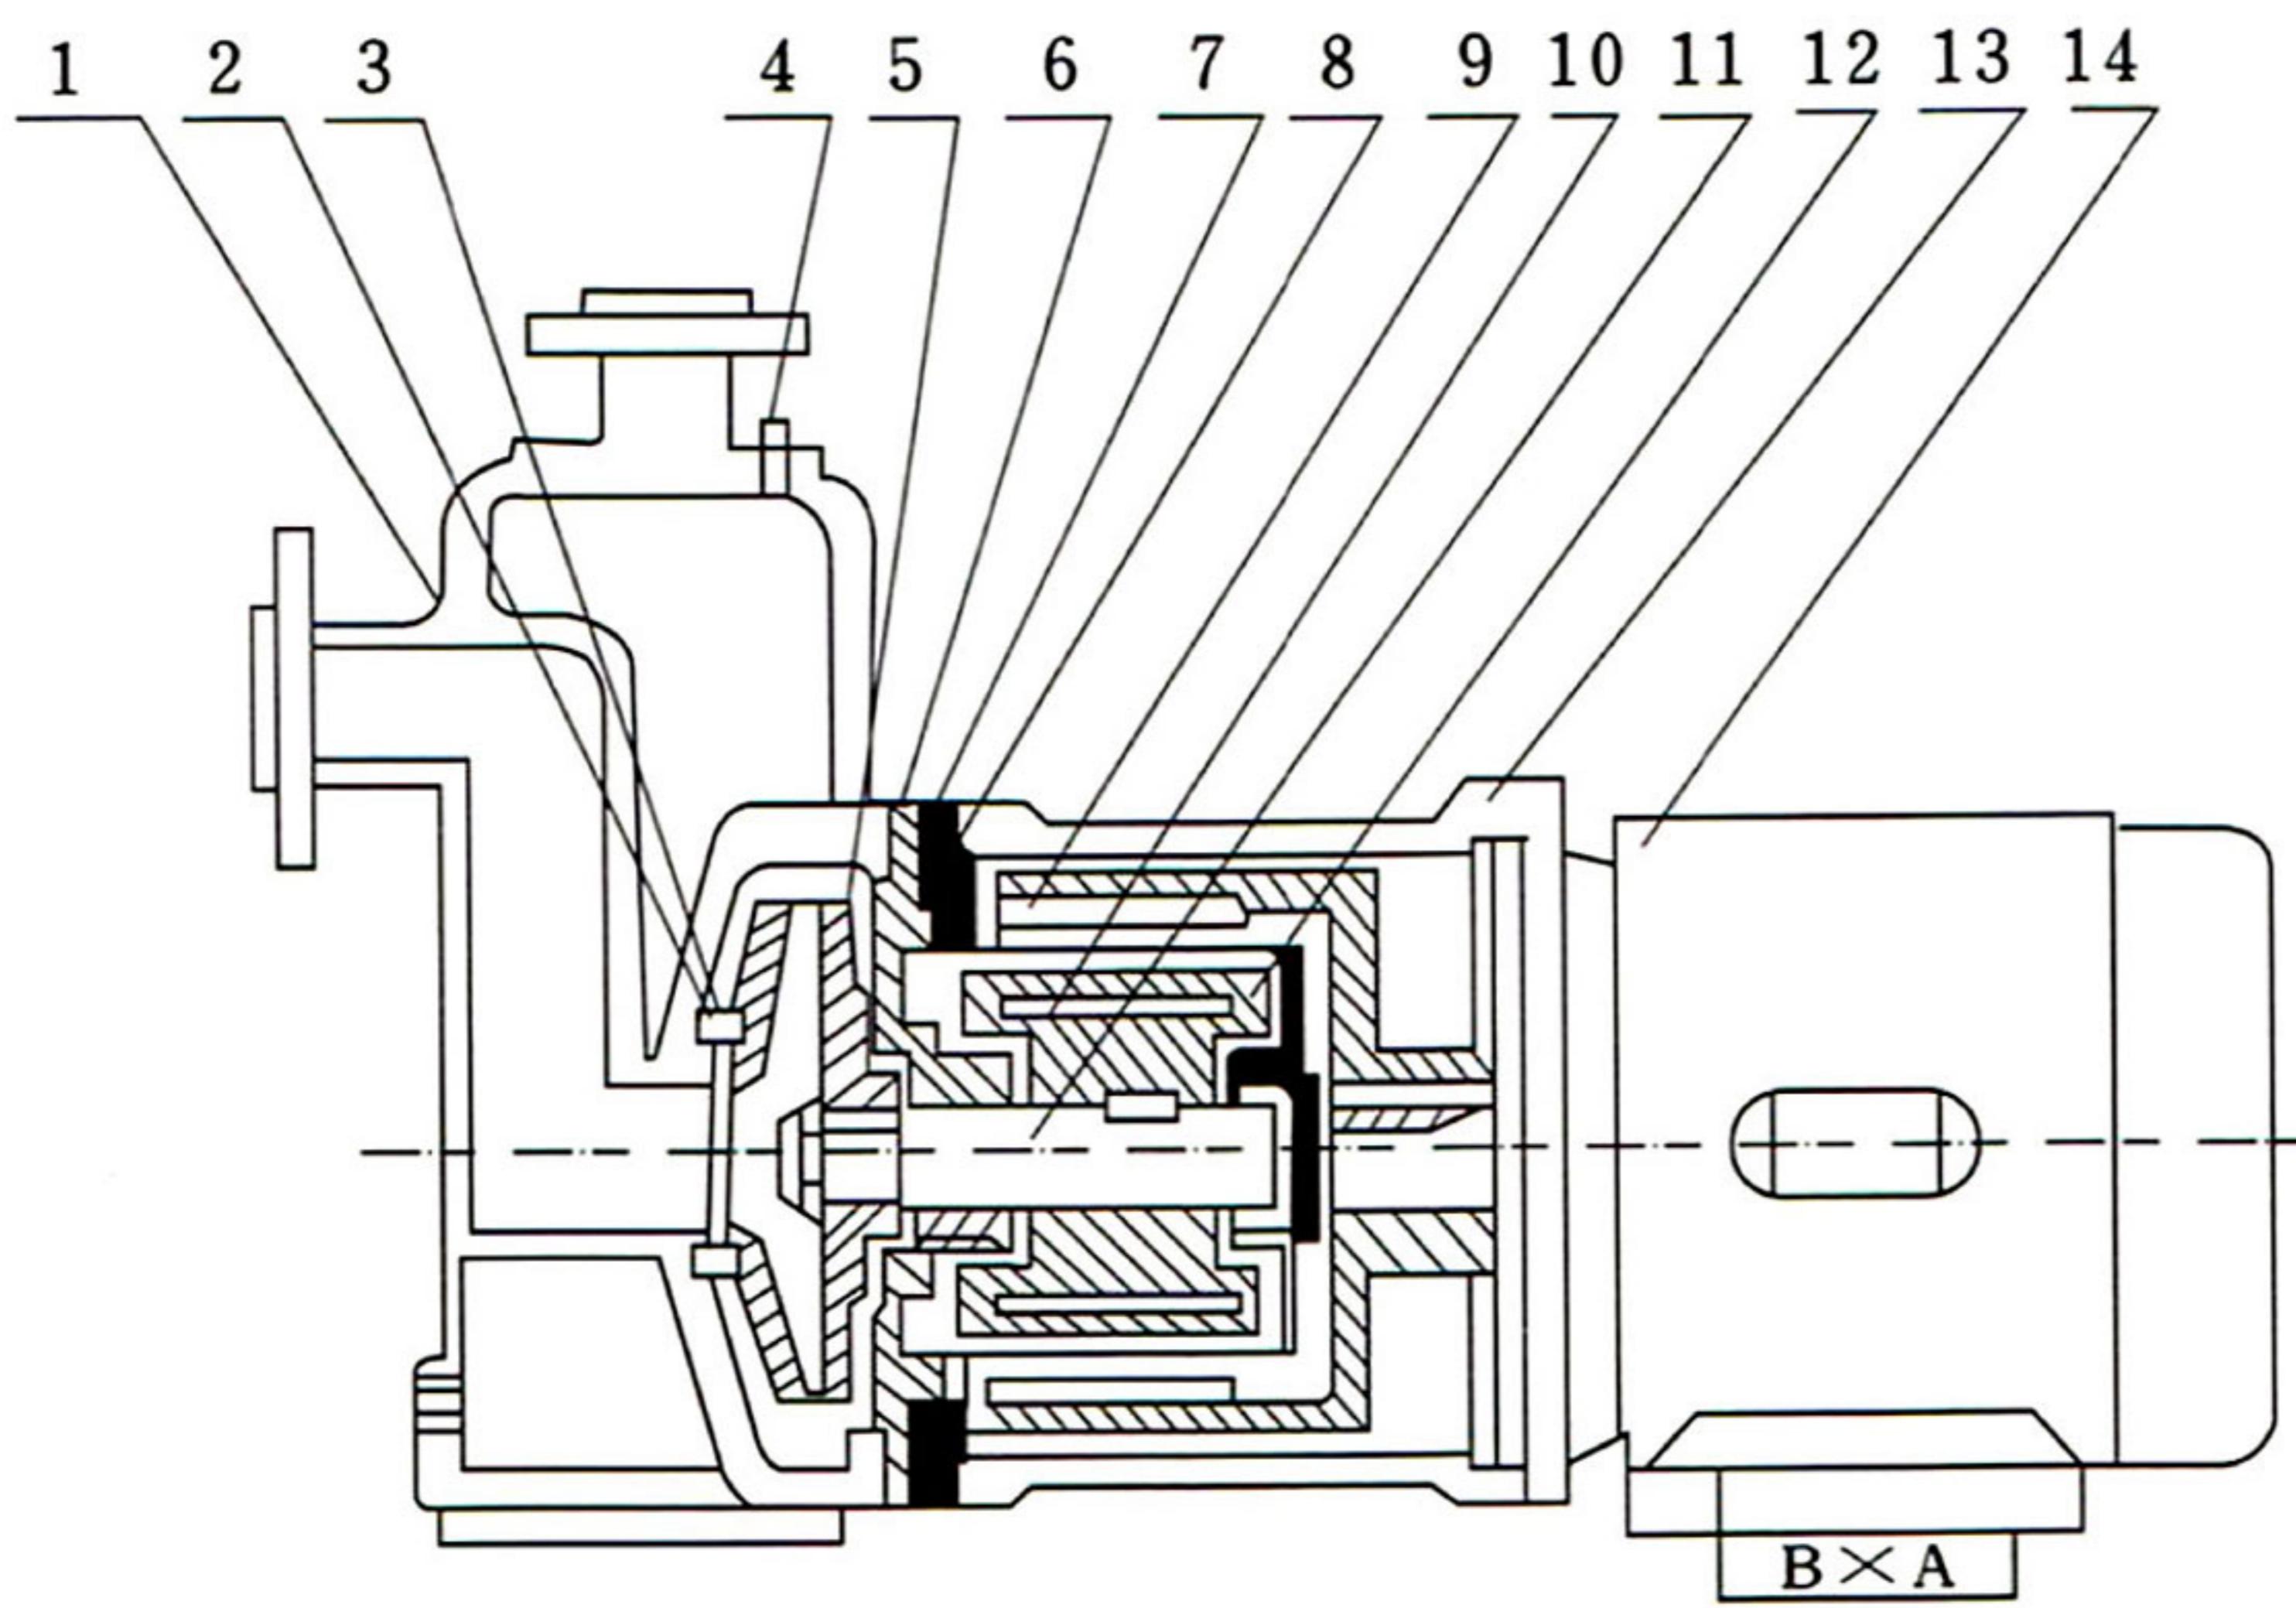

ZCQ series self-priming magnetic drive pump is a new product developed on the basis of CQ magnetic drive pump. With the latest technology abroad, it is a great success proven by repeated research and test by our engineering technicians.

Because of the static seal instead of dynamic seal, the wetted part is at completely seal condition , no leakage . its wetted part cast stainless steel, , corundum ceramic, PTFE.

Not only carrying the advantages of CQ magnetic drive pump, like full seal, no leakage, and corrosion resistance, it is also provided with self-priming performance, with no need of bottom valve and priming water, self-priming height up to 4 meters.

It is widely used in the industries of petroleum, chemical, pharmaceutical, electroplating, printing, dyeing, foodstuff, and scientific research institutions etc. to handle acid and alkali liquid, oils, rare precious liquid, toxic and volatile liquid, or to match circulating water equipment. It is especially suitable for leaky, inflammable and explosive liquid.

STRUCTURE

| | |
|----|-------------------------|
| 1 | casing |
| 2 | static ring |
| 3 | dynamic ring |
| 4 | water feed nozzle |
| 5 | impeller |
| 6 | seal ring |
| 7 | baffle |
| 8 | spacer |
| 9 | external magnetic steel |
| 10 | internal magnetic steel |
| 11 | shaft |
| 12 | shaft sleeve |
| 13 | coupled part |
| 14 | motor |

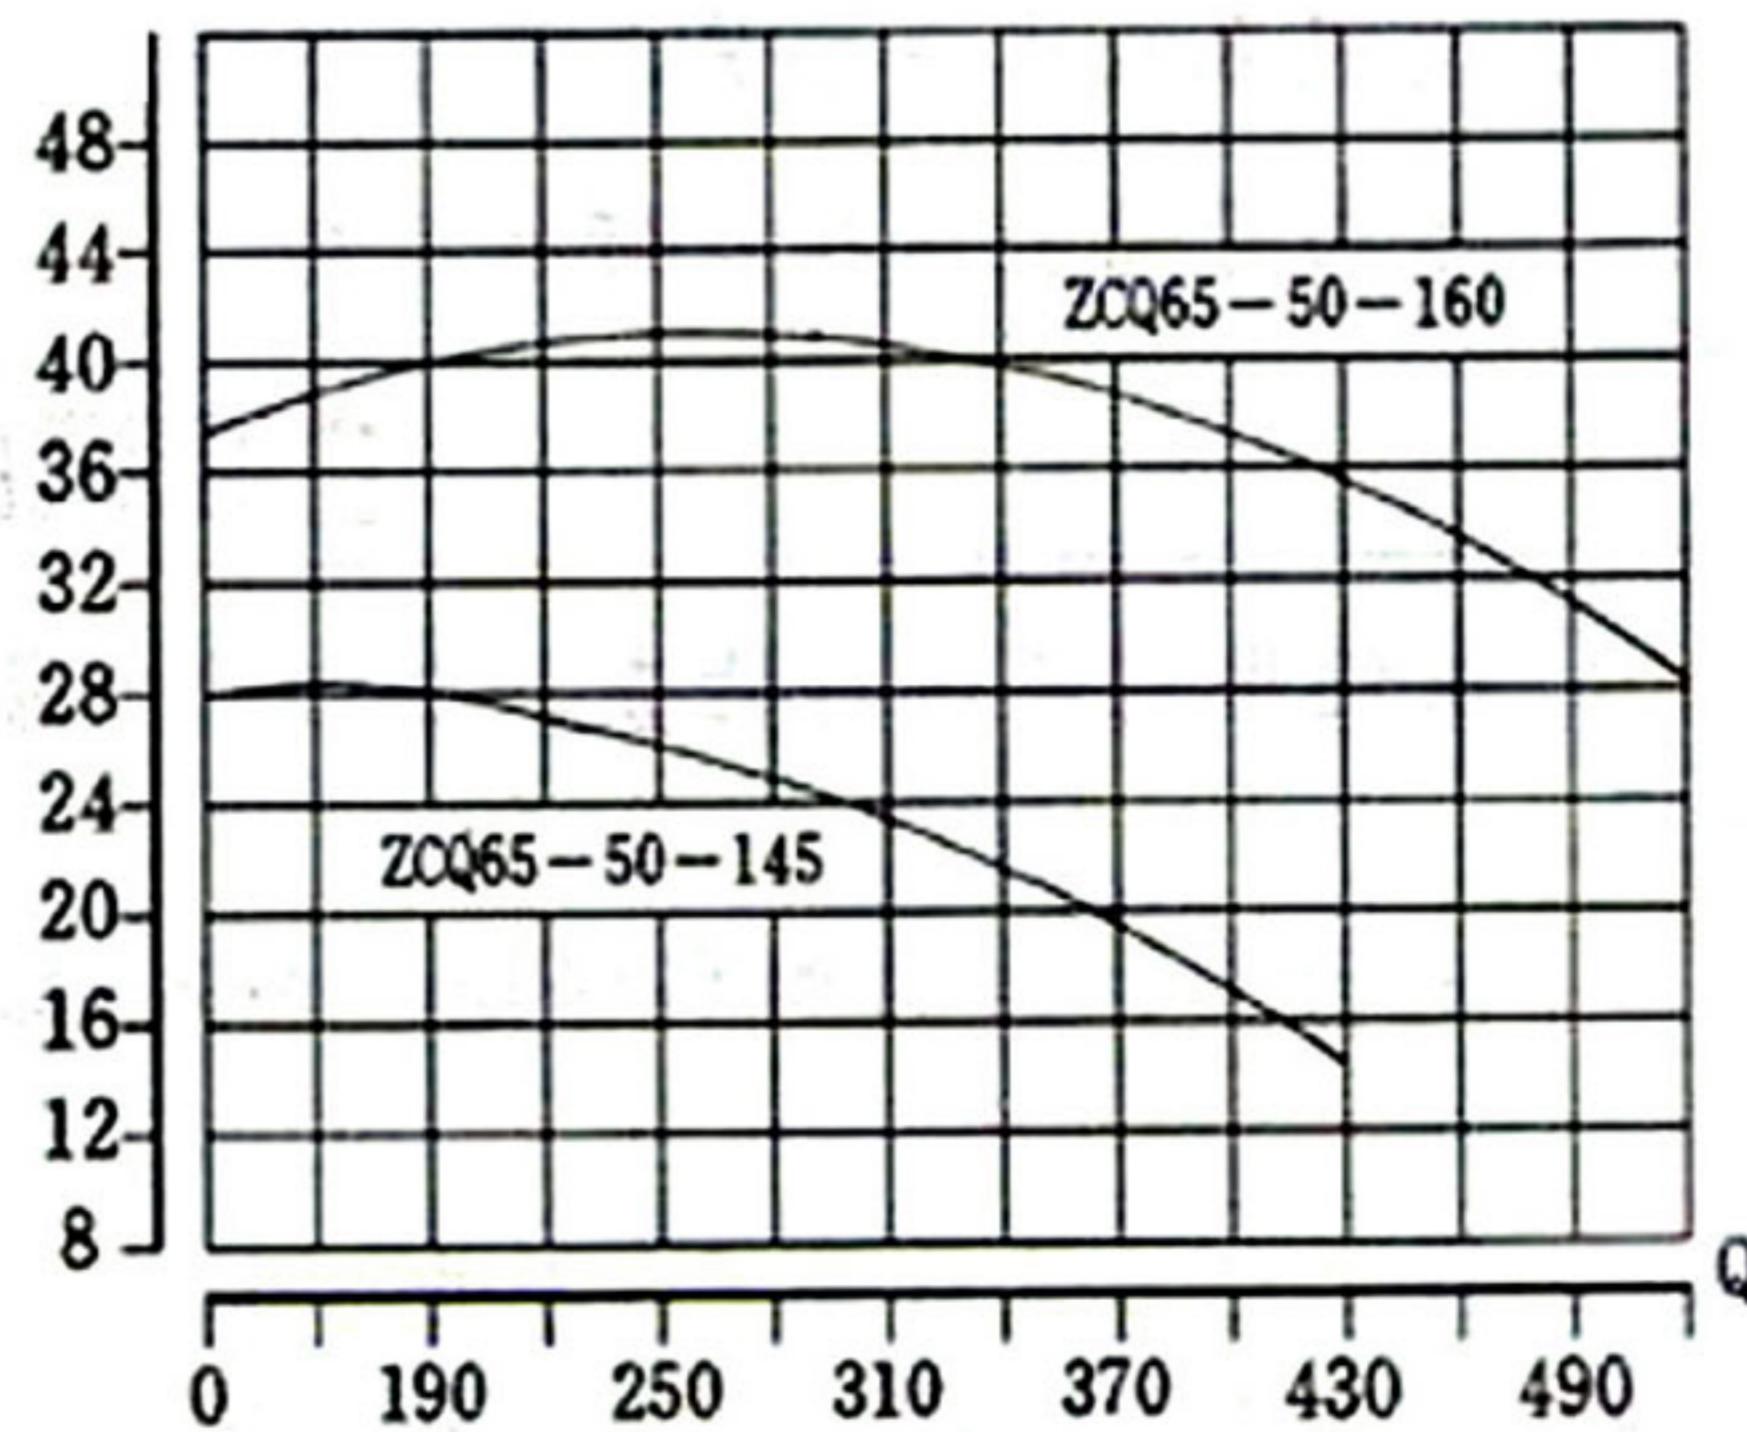

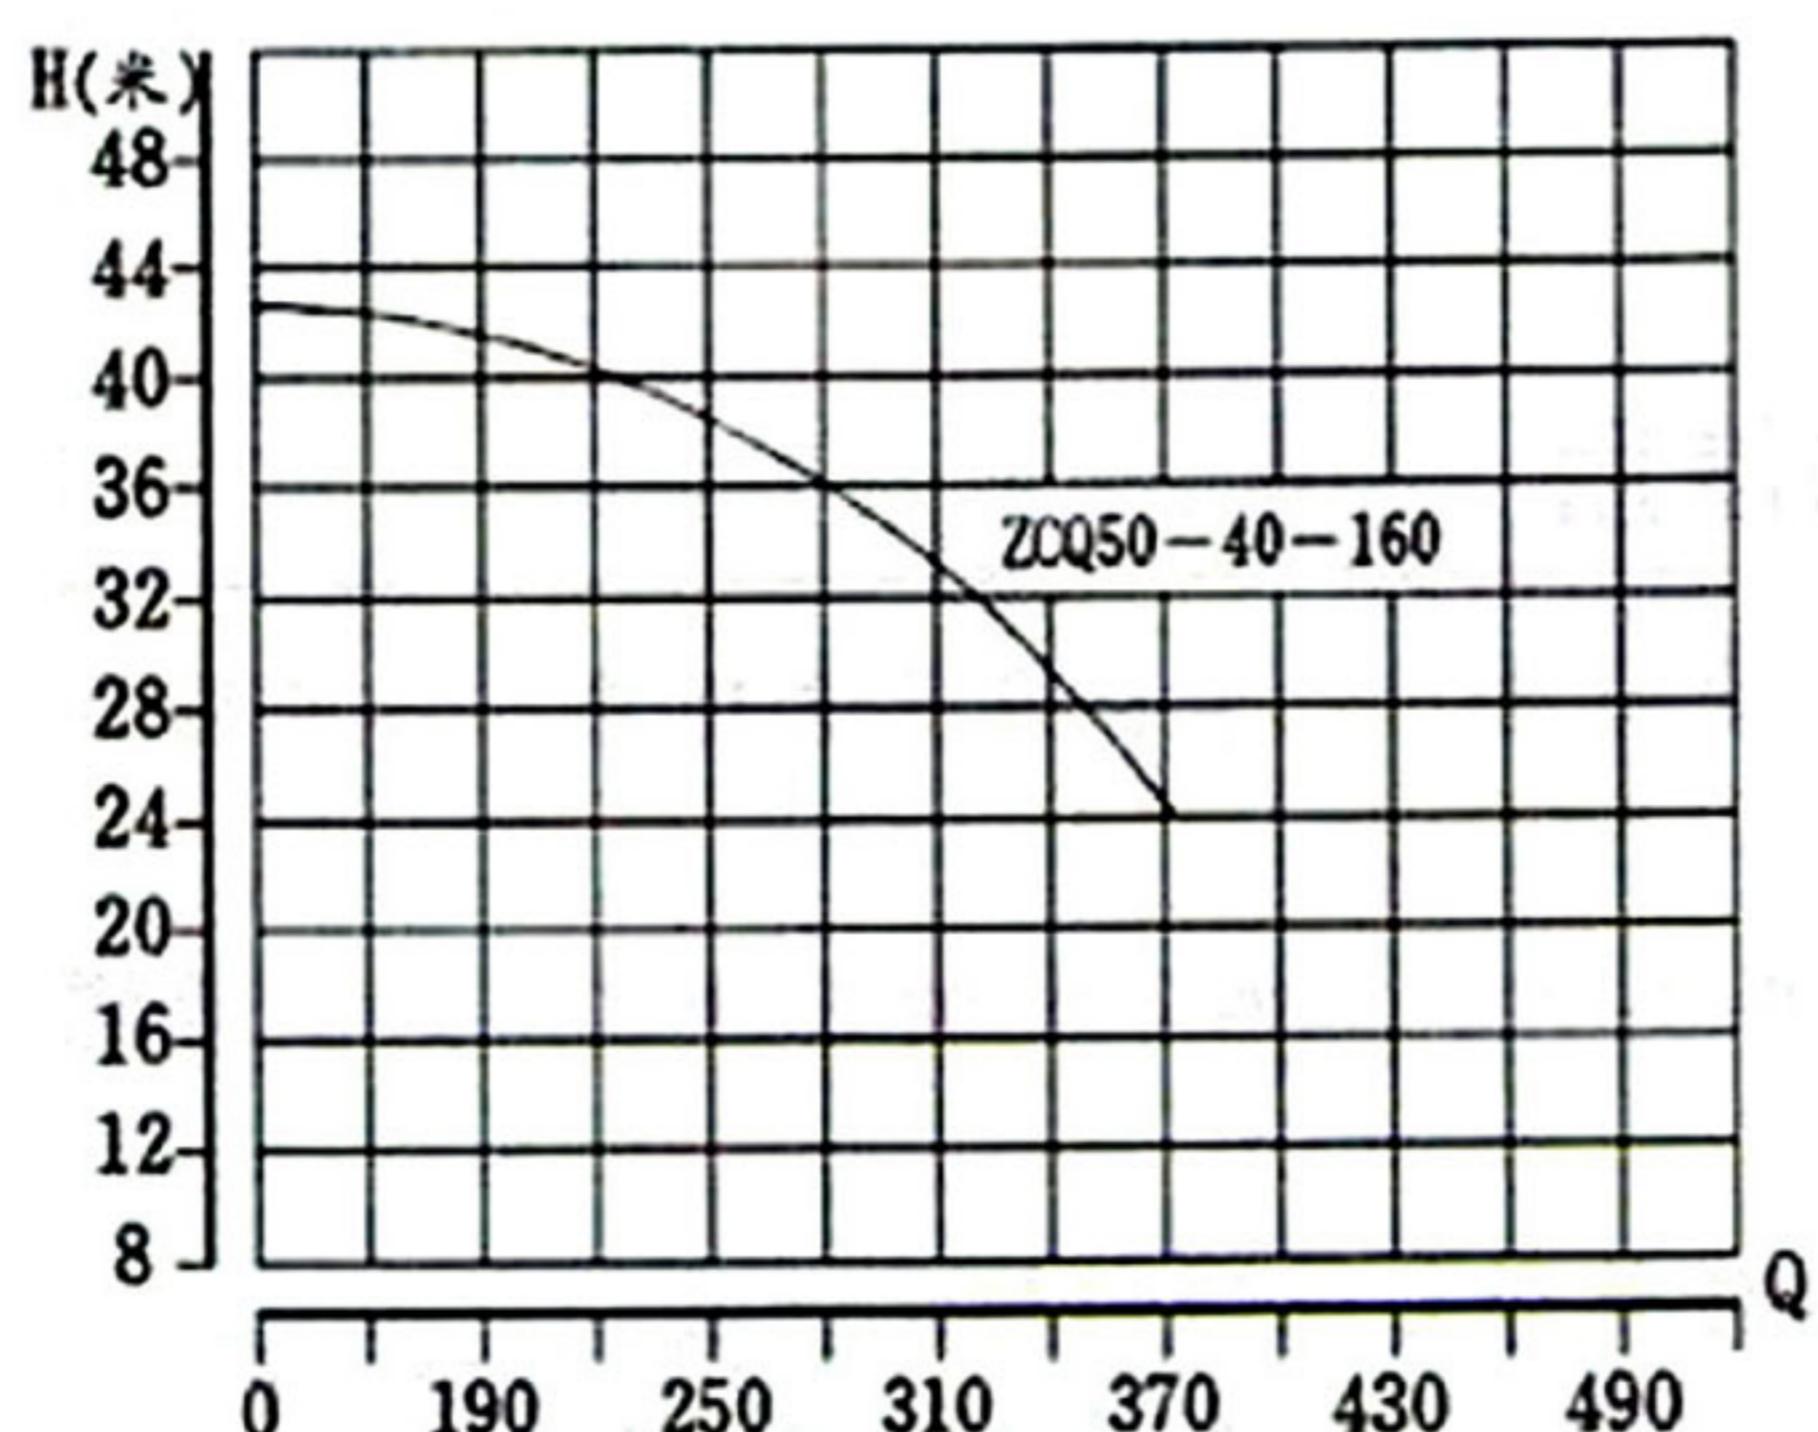

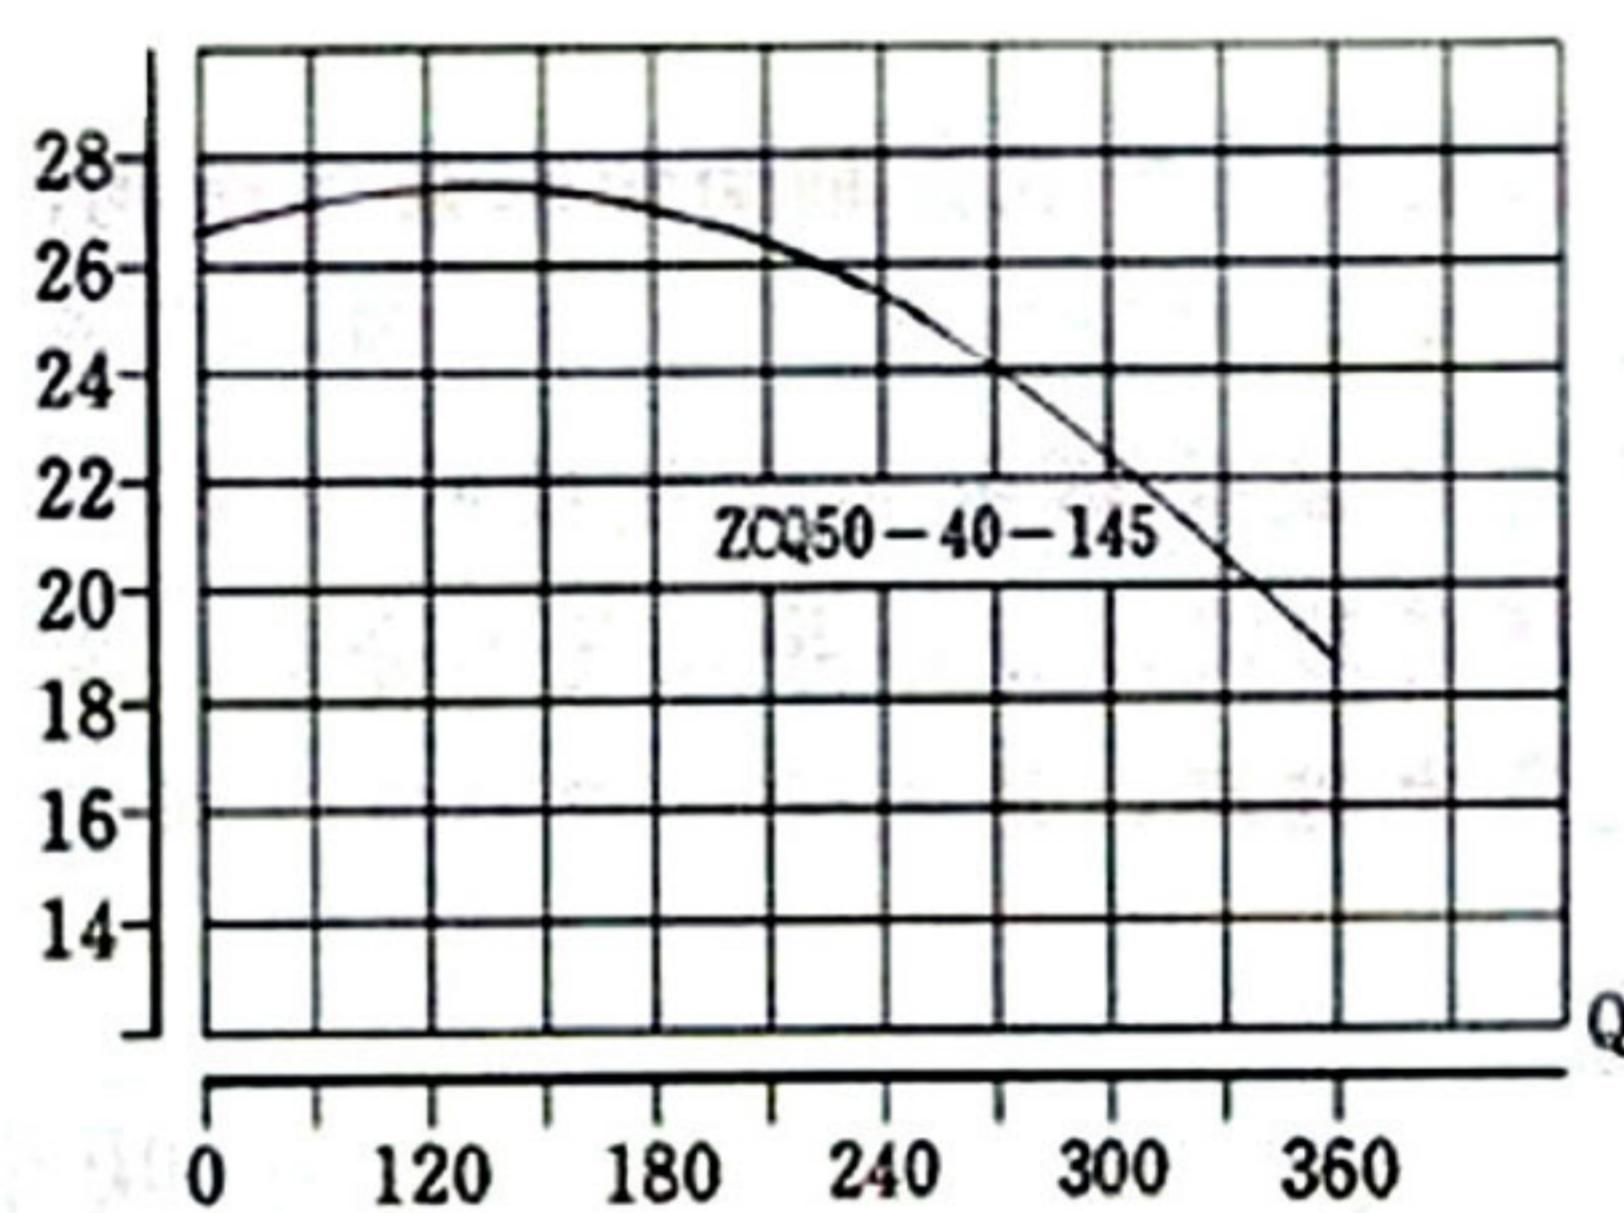

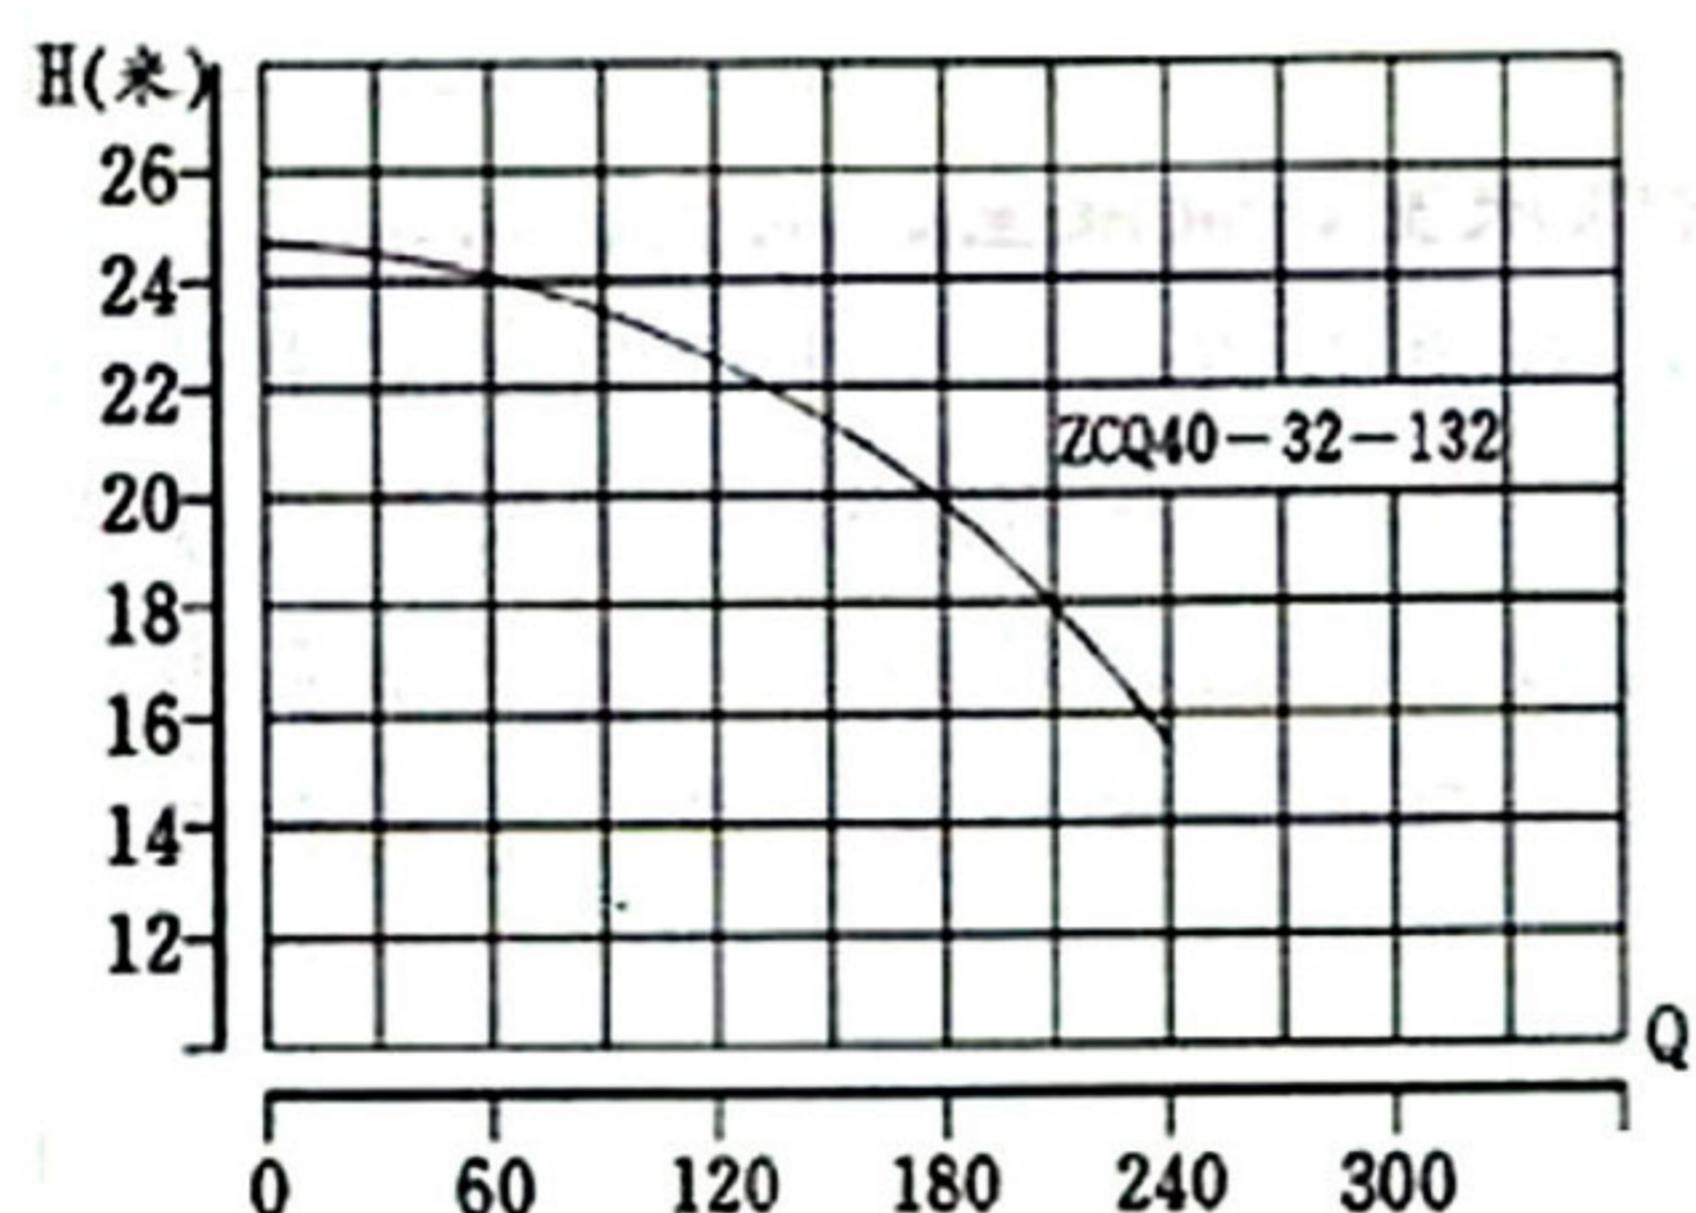

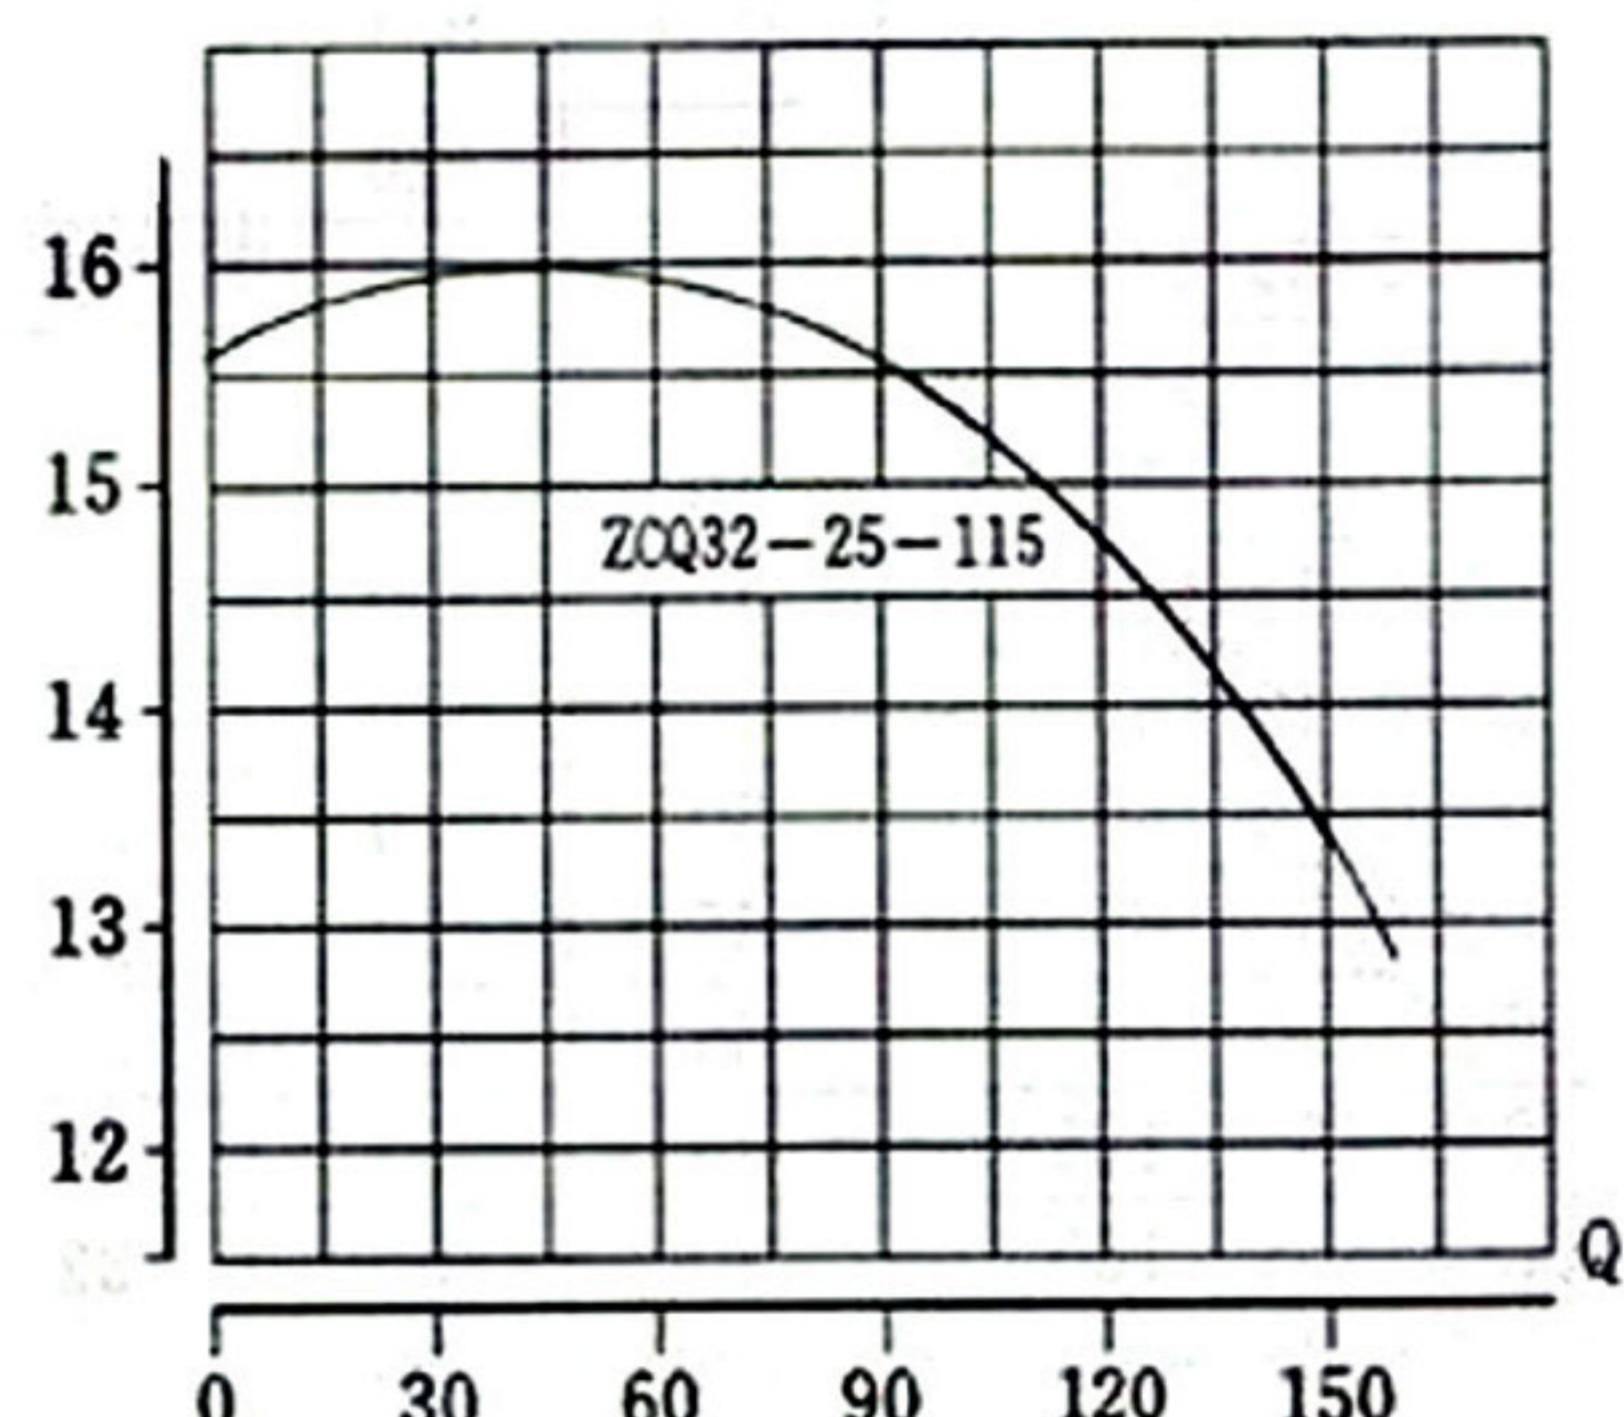

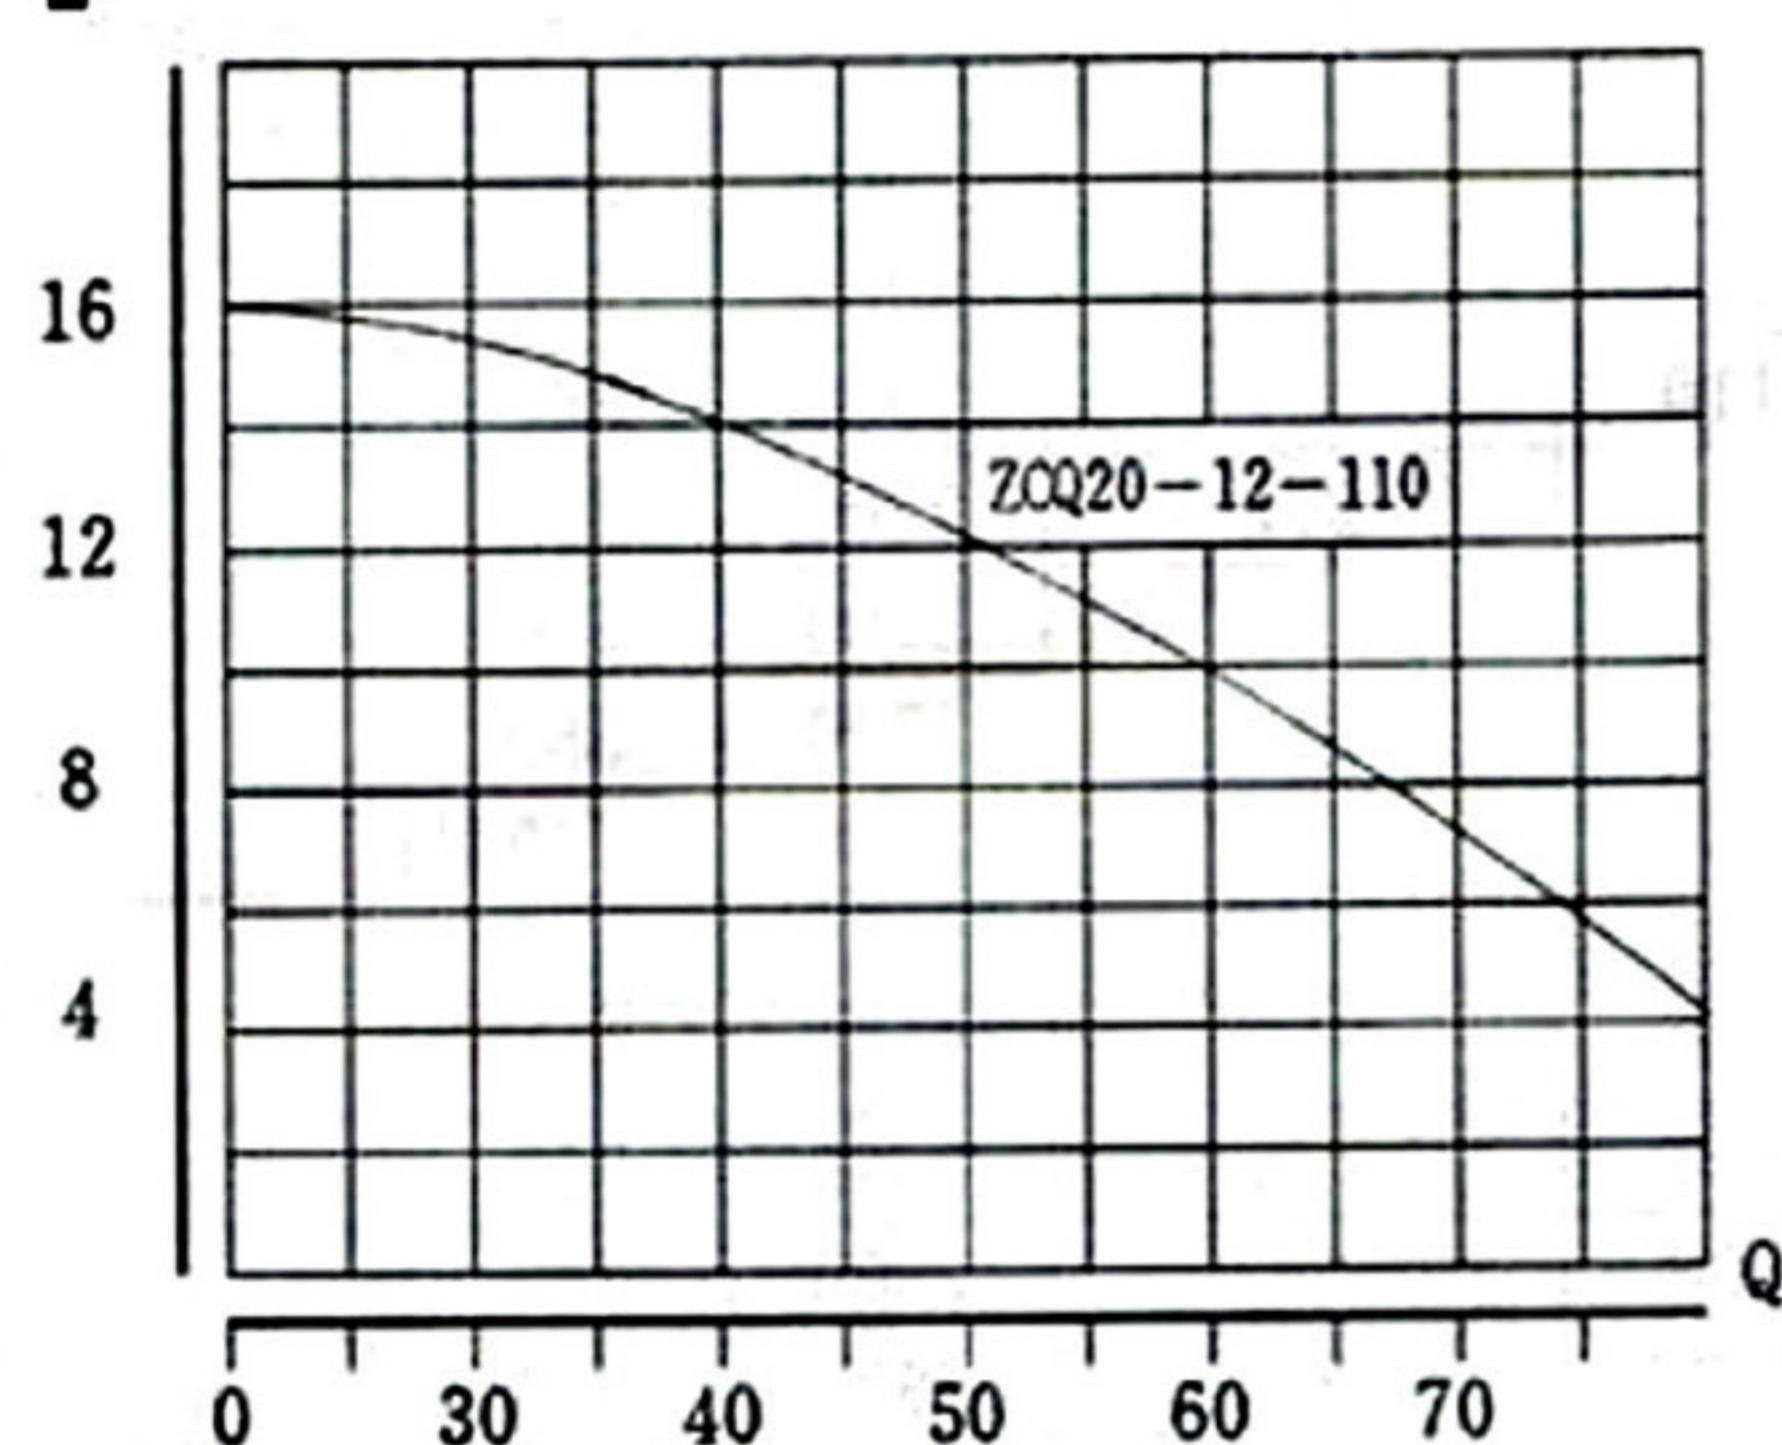

PERFORMANCE PARAMETER

| MODEL | DIAMETER mm | | HEAD m | FLOW L/min | POWER (kW) | SPEED RPM | VOLT (V) | SELF PRIMING (m/3min) |
|---------------|----------------|--------|-----------|---------------|-----------------|--------------|-------------|--------------------------|
| | inlet | outlet | | | | | | |
| ZCQ25-20-115 | 25 | 20 | 15 | 110 | 1.1 | 2900 | 380 | 4 |
| ZCQ32-25-115 | 32 | 25 | 15 | 110 | 1.1 | 2900 | 380 | 4 |
| ZCQ32-25-145 | 32 | 25 | 25 | 110 | 1.1 | 2900 | 380 | 4 |
| ZCQ40-32-132 | 40 | 32 | 20 | 180 | 2.2 | 2900 | 380 | 4 |
| ZCQ40-32-160 | 40 | 32 | 32 | 180 | 4 | 2900 | 380 | 4 |
| ZCQ50-40-145 | 50 | 40 | 25 | 240 | 4 | 2900 | 380 | 4 |
| ZCQ50-40-160 | 50 | 40 | 32 | 220 | 4 | 2900 | 380 | 4 |
| ZCQ65-50-145 | 65 | 50 | 25 | 280 | 5.5 | 2900 | 380 | 4 |
| ZCQ65-50-160 | 65 | 50 | 32 | 450 | 7.5 | 2900 | 380 | 4 |
| ZCQ80-65-125 | 80 | 65 | 20 | 800 | 7.5 | 2900 | 380 | 4 |
| ZCQ80-65-160 | 80 | 65 | 32 | 800 | 15 | 2900 | 380 | 4 |
| ZCQ100-80-160 | 100 | 80 | 32 | 1500 | 22 | 2900 | 380 | 4 |

wetted part made of stainless steel

PERFORMANCE CURVE

media : fresh water at normal temperature

unit: head : m
flow: liter/min

OPERATION WAY EXAMPLE
